INTRODUCTION

This report covers the calendar year 1986. The first section estimates the out-of-province shipments of agricultural products while the following section estimates the value of out-of-country exports by importing country.

SOURCES AND METHODS

Out of province shipments, as used in this report includes shipments to other provinces as well as out-of-country exports. The methodology employed in estimating out-of-province shipments called for data from various sources, including industry*. Certain commodities have been aggregated to maintain the confidentiality of the industry, while every effort has been made to maintain the same commodity listing as used by Statistics Canada.

The primary sources of data for out-of-country exports were Statistics Canada Catalogues 65-003 (Exports by Countries) and 65-004 (Exports by Commodities), supplemented with provincial level information from the Alberta Bureau of Statistics and other Statistics Canada publications.

A number of adjustments and revisions were made to Statistics Canada's exports by province of lading data to arrive at estimated Alberta exports as reported in this publication. These adjustments were necessary to overcome inadequacies in the province-of-lading concept which, in some cases, does not provide accurate export information by province of origin. This is especially true for exports from a landlocked province such as Alberta. The information necessary to adjust Statistics Canada data for Alberta Exports was gathered from many sources within Alberta Agriculture, other government departments and industry.

OUT OF PROVINCE SHIPMENTS

The estimated value of out-of-province shipments for 1986 was $2,931 million which represented a 21.6 per cent decline over the $3,122 million 1985 estimate. (figures exclude fertilizer).

Grains and oilseeds accounted for 40 per cent of the total value of shipments, a decrease from the 46 per cent estimate of 1985. Meat and animal products accounted for 33 per cent of the value of shipments while live animals made up a further 9 per cent of the total. Meats, animal products and live animals together represented 47 per cent of the value of shipments, a 8 per cent increase over 1984.

* readers wishing details about methodology are requested to contact the author

OUT-OF-COUNTRY-EXPORTS

Highlights

The value of out-of-country exports of primary and processed agricultural products in 1986 was $1,663 million or 57 per cent of out-of-province shipments. This represented a decline over 1985 which saw out-of-country exports of $1,753 million or 56 per cent of out-of-province shipments.

The corresponding out-of-country export value for Canadian exports was $9,042 million, a 4 per cent decline over the previous year's value of $9,569 million. Alberta accounted for approximately 18 per cent of total Canadian agricultural exports, about the same as in 1985.

Wheat exports, valued at $589 million continue to be the major agricultural export earner for the province accounting for over 35 per cent of export revenues. This is a significant decline over 1985 which saw wheat exports valued at $822 million or over 47 per cent of total export value.

Canola and canola products accounted for $268 million or 16.4 per cent of export earnings. This was a substantial increase from $225 million or 14.5 per cent of export earnings in 1985.

Alberta barley exports represented over 15 per cent of agricultural exports contributing almost $248 million dollars to export earnings. This represented a twofold increase over 1985 levels even though barley prices declined significantly during the year.

Lower world prices for grains and oilseeds during the year rather than dwindling markets, was the major factor limiting export earnings from these crops.

Live animal exports from Alberta (principally cattle & hogs) were over $115 million. This was below the 1984 record value of $138 million, but above the $106 million for 1985. Shipments of live hogs and cattle to the U.S.A. continued to be responsible for this higher than average value.

Meats and meat preparations showed a substantial increase over the previous year. In 1985, the value of meats and meat preparations exported was $143 million or 8 per cent of total export earnings. In 1986, this value increased to over $175 million or almost 11 per cent of total export earnings. Together, live animals, meats and meat preparations contributed $296 million to export earnings. This represented a 6 per cent increase over the $250 million total for the previous year.

Canola oil showed a decline in export value in 1986 largely because of depressed prices. The 1986 figure for exports was $72 million compared with $114 million in 1985, a 37 per cent decrease in export value. Canola meal showed a slight increase in value in 1986 to over $30 million from the previous year's $29 million.

Honey exports were $5 million in 1986, down from $6.5 million in 1985 and $8.5 million in 1984.

Other important Alberta agricultural exports in 1986 were cattle hides, whiskey, malt, peat moss, tallow, forage seeds, semen and embryos.

TRADING PARTNER ANALYSIS

In 1986, Alberta's most important export markets were the U.S.A., Japan, U.S.S.R., People's Republic of China, Cuba, India and East Germany. These seven nations purchased an estimated 72 per cent of Alberta's Agricultural exports. If we add in purchases by South Korea, Taiwan, Brazil and the United Kingdom, all of whom purchased in excess of $30 million, the estimated purchases of all Alberta Agricultural exports exceeds 80 per cent of total.

U.S.A.

The U.S.A. was the major market for Alberta agricultural exports in 1986. Although Japan was approximately of the same importance in dollar value, the U.S.A. purchases a wider variety of agricultural and processed products from the province. The majority of the value of Japanese purchases come from grains and oilseeds.

Exports to the U.S.A. were over $372 million in 1986, up substantially from $346 million in 1985. Increases in shipments of livestock, meat and animal products were largely responsible for the increase in export value.

Cattle exports were largely responsible for the 10 per cent increase in live animal exports in 1986. With the countervailing duty applied to hogs, swine exports to the U.S.A. declined in 1986. However, pork exports increased to more than offset the decline in live hogs. Meat and meat preparations, at $120 million, were 13 per cent above 1985 levels and remained the largest export category to the U.S.A.

Other agricultural commodities that enjoyed success in the U.S. market in 1986 were forage seeds, cattle hides, peat moss, honey, whiskey, canola oil and canola meal.

Low global grain prices in 1986 accentuated the importance of the U.S. market in that the declines due to low grain prices were not in evidence in the U.S. market. Continued growth in exports from Alberta to the U.S. illustrate the degree to which Alberta products are being accepted in the North American market.

JAPAN

Japan imported over $359 million of food and agricultural products from Alberta, down almost 6 per cent from 1985. Both barley and canola values declined largely because of the depressed prices for these commodities in 1986. However, Japanese imports of Alberta wheat increased to $69 million from 35 million in 1985 despite lower world wheat prices. Canola, still the largest single agricultural import from the province, declined by almost 25 per cent to $148 million. Barley also declined by almost 25 per cent to $39 million.

Japan continues to be a reliable market for canola products, dehydrated alfalfa, barley malt, hides and meats.

U.S.S.R.

The U.S.S.R. regained her status as Alberta's third largest export market in 1986 largely because of increased imports of barley. Alberta exports of barley to the U.S.S.R. increased to over $77 million in 1986 from a low of $8 million in 1985, an almost ten fold increase, despite lower barley prices in 1986. Wheat export values declined to $161 million from $197 million the previous year due to price declines. Because of the increased barley purchases, U.S.S.R. imports of Alberta agricultural products totalled over $238 million in 1986, a 16 per cent increase over 1985.

PEOPLE'S REPUBLIC OF CHINA

Alberta's exports of agricultural commodities to the People's Republic of China decreased from $221 million in 1985 to $96 million in 1986, largely due to declines in wheat shipments in combination with decreased wheat prices. The value of shipments of wheat from Alberta to the People's Republic of China went from $213 million in 1985 to $79 million in 1986 or a 63 per cent decline. Of a positive nature, China re-entered the barley market and purchased over $12 million in 1986.

China is expected to increase her purchases of grains in 1987 but volumes may continue to be quite sporadic in the future because she is near self sufficiency in grain production and imports will depend on domestic growing conditions as well as government policy.

CUBA

Cuba continues to be a reliable purchaser of substantial amounts of prairie wheat. In 1986, the value of wheat imports increased by 40 per cent despite decreases in price. Cuba also imports small amounts of barley.

INDIA

India continues to be a dependable purchaser of large volumes of canola oil. Because of substantial price declines in 1986, the export value for canola oil shipped to India from Alberta declined by 28 per cent to $44 million.

EAST GERMANY

The value of barley shipments to East Germany from Alberta in 1986 was $40 million, a 60 per cent increase over 1985 despite lower barley prices. Wheat exports to East Germany declined in 1986.

EEC AND OTHER WESTERN EUROPE

Exports to Western Europe increased by 44 per cent in 1986 to $126 million, mainly due to increases in the sales of wheat and barley. Exports to this region represented approximately 7.5 per cent of the Alberta total.

EASTERN EUROPE (excluding U.S.S.R. and East Germany)

Exports to Eastern European nations other than the U.S.S.R. and East Germany were over $20 million in 1986, up from $12 million a year earlier. This region accounts for approximately 1 per cent of Alberta's exports.

MIDDLE EAST (excluding African Nations)

Exports from Alberta to the Middle East increased by 30 per cent in 1986 to over $74 million, mainly on the strength of increased barley sales to Saudi Arabia and wheat sales to Iraq.

AFRICA

Alberta exports to Africa declined by 55 per cent in 1986 to 54 million dollars. The decrease was due mainly to lower export volumes and prices for wheat, especially to Egypt and Algeria.

ASIA - PACIFIC (excluding Japan, PRC, and India)

Exports to countries in this region were estimated to be $110 million, a 50 per cent increase over 1985. Wheat exports to South Korea and hides to Taiwan were largely responsible for the increase.

SOUTH AMERICA

Exports from Alberta to South American nations decreased to $52 million in 1986 from $91 million a year earlier. Reduced grain sales to Brazil and lower prices were responsible for much of the decrease.

CENTRAL AMERICA AND THE CARIBBEAN (excluding Cuba)

Exports to this region declined to $23 million in 1986 from $28 million in 1985. Decreases were due in part to smaller sales of canola oil to Mexico.

area accounts for approximately 1 per cent of Alberta's exports.

MIDDLE EAST (excluding African Nations)

Exports from Alberta to the Middle East increased by 30 per cent in 1986 to over $74 million, mainly on the strength of increased barley sales to Saudi Arabia and wheat sales to Iraq.

AFRICA

Alberta exports to Africa declined by 55 per cent in 1986 to 54 million dollars. The decrease was due mainly to lower export volumes and prices for wheat, especially to Egypt and Algeria.

ASIA - PACIFIC (excluding Japan, PRC, and India)

Exports to countries in this region were estimated to be $110 million, a 50 per cent increase over 1985. Wheat exports to South Korea and hides to Taiwan were largely responsible for the increase.

SOUTH AMERICA

Exports from Alberta to South American nations decreased to $52 million in 1986 from 91 million a year earlier. Reduced grain sales to Brazil and lower prices were responsible for much of the decrease.

CENTRAL AMERICA AND THE CARIBBEAN (excluding Cuba)

Exports to this region declined to $23 million in 1986 from $28 million in 1985. Decreases were due in part to smaller sales of canola oil to Mexico.

ESTIMATED OUT-OF-PROVINCE

SHIPMENTS

1986

ESTIMATED OUT-OF-PROVINCE SHIPMENTS - 1985 SUMMARY

	Quantity	Value $000
